health and avoid sickness. Instead of feeling tired and worn out, instead of aches and pains, wouldn't you rather feel fresh and strong?

You can continue feeling miserable and good for nothing, and no one but yourself can find fault, but if you are tired of that kind of life, you can change it if you choose.

How? By getting one bottle of BROWN IRON BITTERS, and taking it regularly according to directions.

Mansfield, Ohio, Nov. 26, 1881.

Gentlemen:—I have suffered with pain in my side and back, and great soreness on my breast, with shooting pains all through my body, attended with great weakness, depression of spirits, and loss of appetite. I have taken several different medicines, and was treated by prominent physicians for my liver, kidneys, and spleen, but I got no relief. I thought I would try Brown's Iron Bitters; I have now taken one bottle and a half and am about well—pain in side and back all gone—soreness all out of my breast, and I have a good appetite, and am gaining in strength and flesh. It can justly be called the king of medicines.  
JOHN K. ALLENDER.

BROWN'S IRON BITTERS is composed of Iron in soluble form; Cinchona the great tonic, together with other standard remedies, making a remarkable non-alcoholic tonic, which will cure Dyspepsia, Indigestion, Malaria, Weakness, and relieve all Lung and Kidney diseases.

## PROVIDING FOR THE LIEUTENANT GOVERNOR.

The *Silver State* advocates passing a law making the Lieutenant-Governor ex-officio Warden of the State Prison. It says:

"The Lieutenant-Governor should be ex-officio Warden of the State Prison, as the law originally contemplated. Under the law which goes into effect next January, the Lieutenant-Governor is allowed a salary only for the time the Legislature is in session and he presides in the Senate, and during the absence of the Governor from the State. This will not be sufficient to support that officer decently, and he should be given something else to do, and his salary proportionately increased, so that an intelligent poor man, if elected to the office, can, by performing the duties of Warden of the State Prison, get a sufficient salary to support him. Of course, place hunters, who have hopes of being appointed Warden of the Prison, or Deputy in some State office, will object to a consolidation of offices, and a saving of expenses to the tax-payers, but the masses of the people will undoubtedly sanction such changes when a saving can be effected."

The *Silver State* can give no good reason for advocating such a change. As the law now stands the Lieutenant-Governor will receive ample compensation for the labor he will perform. He can turn his attention to the pursuit of legitimate business and fulfill the duties of his office. It is true that the salary he receives will not be "sufficient to support him decently," but that is no reason why any department of the State government should be turned into a charity hospital. Mr. Burke and Mr. Loughton both sought the nomination of Lieutenant-Governorship, knowing just what the salary was. Mr. Burke, if he had been elected, intended to go to Carson during the session of the Legislature and preside over the Senate, and after its adjournment, it was his intention to return to the sacred precincts of the Shelburn Postoffice and that, in connection with his other business, would have been sufficient to have "supported him decently." Our newly elected Lieutenant-Governor will have twenty-two months out of every two years to devote to private pursuits, and he certainly is capable of earning enough to support himself and family respectably during that time without any further compensation from the State than has already been provided for by law. The office of Warden of the State Prison requires close attention. If the Lieutenant-Governor had the duties of both offices to perform that of Warden would of necessity be neglected for at least sixty days every two years. In case of the death of the chief Executive the Lieutenant-Governor would be called upon to fill that office, and that would necessitate the appointing of a Warden. The law has been frequently changed already to give some one a good salary to perform the duties of a useless office. The last Legislature lopped off that much expense from the general expenses of the State government, and nothing—not one cent—is to be saved by the consolidation of the two places.

The *Silver State* says "place hunters" will of course object to the measure, but the masses of the people will undoubtedly sanction such a change. The masses of the people truly do object, most seriously, to the frequent changing of laws to give "place hunters" "something to do."

Ben Butler will be declared Governor of Massachusetts in a proclamation closing with the sentence, "God save the Commonwealth of Massachusetts." A little extra emphasis ought to be put on these words this time, the *Inter-Ocean* thinks. They should be printed and spoken in italics.

The Rev. Charles Spurgeon, son of the famous London preacher, told a Boston audience the other day that nobody had set wine before him since his arrival in this country, several weeks ago, and that he had seen none on private tables. He expressed his gladness thereat.

## EDITORIAL NOTES.

A New York genius claims to have discovered a way to burn all the sparks, smoke, gases and cinders from the locomotive, while the machine is in rapid motion. The process is entirely under the control of the engineer, and is said to have been tested and proved entirely satisfactory.

When you see a man rake the fallen leaves off the grass in the Fall, pity him says the *Detroit Free Press*. In a month he will put on straw to serve the same purpose the leaves would have done.

From present indications Hon. C. S. Varian will be elected to the speakership unanimously.

The Tariff.  
WASHINGTON, Nov. 10.

The argument of the Metropolitan Industrial League before the Tariff Commission, prepared by Chas. S. Hill of the State Department, has just been issued from the government printing office in a volume of 200 pages. It is supplied with diagrams showing the degree of influence that several conditions affecting the results of the tariff have in the principal countries of the world. Mr. Hill recommends a rational reduction and abolition of the duplex system in cotton goods; an increase of rates in hemp, jute and flax; protection to American wines and brandies against foreign adulterations; a material change of rates in metals and minerals, and that a duty of two dollars per ton be placed on iron ore; slight modifications in breadstuffs, provisions and animals; the existing average rates of sugars are generally endorsed, but the abolition of duplex rates is strongly urged; silk culture and reeling are also recommended; abolition of duty on lumber is likewise advised; in wool and woolen goods a simplification and consistent revision, contemplating a change from the duplex system to an ad valorem, is recommended; a duty of ten per cent. on quinine is advised; to the free list are added 25 articles heretofore rated, among which are spices, turpentine, sponges, saltpetre, rosin, asphaltum and nitrate of lead; a material change is recommended in the internal revenue tax involving the abolition of tax on most articles now specified. Referring to the revival of our merchant marine, Mr. Hill says: "In our industries at home as well as in our credit abroad there is no source of personal employment and national pride so great as that of ship building. Let Congress properly give a subsidy to our mail transports and the demand for American ships will immediately prove the fallacy and absurdity of the imputation that Americans cannot build ships, and the foolish assertion that the tariff of five per cent. of a ship's cost for crude materials could effect the conditions of our shipping community." A tariff tribunal composed of the U. S. Commissioner of Customs, a representative selected from merchants and manufacturers, and a third arbitrator selected by both, similar to the provisions of the tariff law of France, is earnestly recommended.

The Old Man's Money.  
PROVIDENCE, R. I., Nov. 10.

A compromise was arrived at late yesterday forenoon between the heirs and legatees of the late Joseph Cook, who died leaving \$2,000,000, a large portion of which he made in the grocery business in San Francisco. Mr. Cook's will was very hard on one of his daughters, Alice, who is physically deformed and an invalid, as he cut her off with \$6,000 per year, which she remained single. If she alone survived her brother and sisters she was to get nothing, and if she or any other legatee contested the will they were to be cut off without a penny. The compromise now effected provides much more liberally for Alice than this, but the terms are not to be made public until the will is probated.

The Right of Free Speech.  
TOLEDO, O., Nov. 10.

The ex-priest O'Connor, who was interfered with by a mob here last Sunday night, delivered his lecture in the Opera House this evening, to about 800 people, on "Why I left the Catholic Church." In anticipation of further trouble, 40 officers were at hand in the hall, and five companies of military were at their armories awaiting their orders. Public sentiment, however, was so strong in favor of protecting him in the right to speak, that there was little trouble in preserving order, and, aside from a few slight interruptions, no trouble occurred. Two or three men who interrupted the speaker were promptly arrested.

Our Pilgrim Fathers.  
PROVINCETOWN, MASS., Nov. 10.

Union service was held in the Center Methodist Episcopal Church this evening in commemoration of the 262d anniversary of the arrival of the Mayflower in the harbor, and the signing in her cabin of the compact of government by the pilgrims. A permanent organization is formed to perpetuate the memory of the pilgrims' first landing at Provincetown.

The Electrical Storm.  
CHICAGO, Nov. 10.

At an early hour this morning the night manager of the Western Union Telegraph office stated that their wires were again seriously affected by the aurora borealis, and that the duplex and quadruplex system of working their wires had to be abandoned on many of their eastern currents. The trouble seems to be general.

The Last Miracle.  
PITTSBURGH, Nov. 10.

Reid Hoffman, the recently cured cripple, told the story of his restoration last night in the Pigeon Creek

Presbyterian Church, near Bentlyville, to as many people as the church could possibly hold. The inhabitants of that section are greatly excited over the case and can scarcely think of anything else. They come for miles in every direction to hear Hoffman recite his wonderful story. The church was surrounded by hundreds of people of all descriptions. The skeptics were few. Hoffman opened the services by asking the congregation to rise while he prayed. He thanked the Lord for His grace in curing him of a disease which men of this world had vainly attempted to conquer. He was glad now that he had suffered years of misery, because it enabled him to show the world the power of the Lord. Many women of the congregation broke into tears before the prayer was ended. After that Hoffman proceeded to tell in a sincere manner the story of his cure. There was none who was not impressed with the honesty of his belief that he had really been cured by a miracle. He intends, if his strength holds out, to preach throughout all Western Pennsylvania.

Results of a Railroad War.  
ST. PAUL, Nov. 10.

A slashing cut in passenger and freight rates on the Omaha road was the sensation of the day. The most comprehensive cut was made, however, by the Chicago & St. Paul Railroad. General Manager Merrill arrived in St. Paul to-day and at once decided upon a heavy cut in passenger and freight rates from St. Paul and Minneapolis to Chicago and Milwaukee, and to and from all points reached by the company's lines in Minnesota, Iowa and Nebraska, and to points in Missouri, Colorado, and to San Francisco. The cut in freight enables shippers to send wheat from all points in central Minnesota to Minneapolis to be manufactured and reshipped to Chicago or Milwaukee as flour for 12½ cents per 100 pounds; millstuffs to Chicago, 7½ cents; flour, 20 cents per barrel. Passenger rates to and from most interior points in Minnesota and to and from Sioux City are reduced to 25 cents each way from many interior points in Minnesota; to Chicago, \$1; to San Francisco, \$46 50. Mr. Merrill states that he thought the war would last longer than was generally anticipated. He knew of no prospective pool meeting and that the M. C. M. & St. P. would protect the interests of its patrons at all hazards.

Respect for Simonton.  
NEW YORK, Nov. 10.

The following resolutions were unanimously passed by a full meeting of the Associated Press, held on Wednesday:

Resolved, That members of the Associated Press hereby express their deep regret at the sudden death of James W. Simonton, for a long course of years General Agent of the Associated Press of the country, and their sincere sympathy with members of his family; and that we share with them in their great bereavement in the loss of a husband and father and the closest and dearest of friends. Recalling the time of Mr. Simonton's separation from the services of this Association within the year past, and his connection with it for fifteen years, we desire to renew at present the warm expression of approval recorded in the journal of this body of his devotion to the interests of all its members and his fidelity in the discharge of all its trying and arduous duties.

Resolved, That the members of this Association will attend the funeral services of the deceased on Sunday next, and that a copy of these resolutions be forwarded to the family of Mr. Simonton and recorded upon the journal of the Association.

He Wants no Display.  
PHILADELPHIA, Nov. 10.

In a letter to the State Fencibles battalion which tendered their services as escort upon the occasion of the inauguration of Governor elect Pattison, that gentleman says: "There is no reason that I can see why the more taking of an oath by a citizen called by the people to execute a public trust should be made the occasion for scenes of pagantry and demonstration. I am determined, as far as I can control the matter of my inauguration as Governor, that I shall not cost the people of Pennsylvania a dollar."

Tyler immediately pulled his pistol and told the Constable to take his man. The Constable had a warrant for the stranger for embezzlement in defrauding the Greenville bank. Williams took his prisoner back to Greenville. Tyler did not learn his name.

**He Found His Horse.**

D. H. Dodge had a fine mare stolen from his barn at Bowers' mansion about ten days ago. He advertised in the GAZETTE's 50 cent column; and Saturday evening a letter addressed to this paper from S. J. Gee, Eagleville, was received, stating that the Constable of Eagleville had read the advertisement and found the mare. Mr. Dodge was informed of the fact, and left this morning to bring in his mare and the thief.

**A Happy Thought.**

It was a happy thought that led to the production of a concentrated fruit syrup, so harmless in its nature that it may be given either to the mother or her babe, relished alike by both, and of such wonderful efficacy that all who take it feel brighter and happier. Every first-class druggist will furnish any one wishing Syrup of Figs a trial bottle free of charge, or sell 50 cent and \$1 bottles.

## TROUBLE ON THE RAILROAD.

Four Cars Destroyed by Fire and a Brakeman Perishes in the Flames.

The express train from the West was 12 hours late yesterday, not arriving here till after 6 o'clock. The delay was caused by an accident which occurred just this side of Davisville. It seems a freight train pulled out of Davisville just a little in advance of the passenger, and the train men neglected to put out the usual red light signal on the rear of the train. The freight train parted at the trestle about one mile this side of Davisville. When the passenger came along she collided with the rear of the delayed freight, piling up the cabooses and three empty freight cars in such a manner that they caught fire and were completely consumed. A brakeman on the freight known as "Quaker" perished in the flames. The passengers on the express were considerably jolted, but no one was injured. From all accounts the crew on the freight train are responsible for the accident.

**Truckee Items.**  
(Republican, Nov. 18.)

The Summit Ice Company are busy getting ready to put up the coming ice crop.

J. B. Brogan & Co. have taken a contract for putting five thousand cords of railroad wood in at Prosser Creek.

Captain Burton has taken the contract for carrying the mail between Truckee and Tahoe City. The contract calls for a tri-weekly service.

John F. Moody has hauled off his freight teams to Tahoe, and driven his stock below for the winter.

Thomas Gibbons, the young man who was asleep upstairs in the Jibboom street dance house at the time of the killing of Harvey Dilley, has been committed to jail to secure his attendance as a witness.

The weather for the past week has been decidedly frigid. Every night the thermometer has gone down as low as zero, and once or twice several degrees below. In Truckee eight degrees below zero has been the coldest, but at Prosser Creek, Boca and Camp 20 it has been much colder. The ice men are happy.

The roads between Truckee and Sierra Valley are reported in an almost impassable condition. The mud has frozen so stiff that the sun's rays have no effect upon it, and it is like riding over a corduroy bridge nearly the entire distance.

The new round house at Truckee is now receiving the finishing strokes of the mechanics and painters. All the engines are housed in it, and the old one has been torn down. This new round house is one of the most magnificent structures on the line of the road. It is substantial and costly, and looms up above everything else in Truckee.

**Palmer's Dramatic Company.**

The Enterprise has the following to say concerning the dramatic company which will appear in Reno Wednesday evening next: Palmer's Dramatic Company concluded its season here last night with the drama of "The Lights of London" to a very good house. We are glad to note that the engagement of this company has been prosperous financially and successful artistically. With the exception of the original Union Square Theater Company, which played an engagement at Piper's Opera House some six years ago, the present dramatic combination is by far the strongest that ever visited this city—strong in its entirety and individuality, and composed of as good material as can be found in the profession in the country to-day. At Reno they will give "The Lights of London." They have been phenomenally successful in San Francisco and through the East, and the people both at Carson and Reno will on this occasion witness such a dramatic entertainment as is seldom offered them, and it may be a long time before so splendid a combination of players will again visit this section.

**A Grateful Parent.**

J. B. Henry, father of Ed. Henry, the conductor who was killed here by the cars several weeks ago, is in town to-day. He has lately returned from British Columbia. Mr. Henry desires to return his sincere thanks to the friends of his deceased son who were so kind at the time of his untimely taking off. He wishes especially to thank the members of Amity Lodge, No. 8, K. of P., for the attention and kind treatment they bestowed. Mr. Henry will only remain here a few days.

**Cigars, Wine and Cake.**

Thomas Tomamichel, proprietor of the William Tell House, and Miss Louisa W. Becker were married Nov. 18. As soon as the ceremony was completed he sent the GAZETTE printers a hamper of wine, cake and cigars, which were disposed of with great relish, while the recipients poured out blessings upon the house of Tomamichel. May he and his wife be as happy as harpers in New Jerusalem.

**The Last of Earth.**

The funeral of the late Mrs. O. C. Ross took place this afternoon at 1 o'clock from the family residence at Glendale. It was very impressive and largely attended.

MANHOOD RESTORED.

CONTINUES TO TREAT  
successfully by Homeo-  
pathy every form of Special or  
Chronic Disease without  
Mercury or Nauseous Drugs.  
Dr. Liebig's Invigorator is a

for Seminal Weakness, Ner-  
vous and Physical Debility,  
Lost Manhood, Vital Exhaust-  
ion, and all the terrible results  
of abused nature, excesses  
and youthful follies. The  
Doctor will agree in writing  
to forfeit \$1,000 for a case  
that he undertakes and fails  
to cure. The reason thousands  
cannot get cured of Seminal  
Weakness and the above dis-  
eases is owing to a complicated  
condition called Prostatitis,  
which requires a special remedy.  
Dr. Liebig's INVIGORATOR, No. 2,  
is a special cure for Prosta-  
titis. Price of either In-  
vigorator, \$3 per bottle, or 6  
bottles for \$10. Sent to any  
address securely covered from  
observation. Seminal Weak-  
ness and Prostatitis drain  
vitality from the body and  
cause numerous diseases that  
baffle ordinary medical treat-  
ment. If allowed to continue,  
the unnatural loss affects the vital organs,  
which causes destruction of cases. Consump-  
tion, Diabetes, Bright's Disease, Jaundice,  
Insanity, etc. Excesses, Non-use, Abuse,  
Inherited Weakness, Malnutrition, Mental and  
Cerebral Complaints bring in the above fatal  
diseases. Debility and Seminal Weakness  
obstruct the important and necessary acts of  
life and their enjoyment. Cures Guaranteed.  
Diseases of the Genito-urinary Organs, Kidney,
